"Respectfully submitted,

Board of Health of Provo City, by Thomas N. Taylor, President. "Provo City, Jan. 8th. 1901." Mr. Wride stated that his views on

the question of closing the schools had not changed; he was not in favor of discriminating between vaccinated and unvaccinated children, and he was not favor of closing the schools. Mr. Poulton believed that on matters affecting the health of the public the

Johnson and John Johnson were appointed a committee to solicit subscriptions from Provo business men for money to be applied to the purchase of a site for the proposed crushing station, These gentlemen, who were the com-mittee appointed to confer with Manager Cutier, reported that he had visited several places proposed for sites, and had decided that the old Bunnell farm in Lake View, owned by J. W. Knight, was an ideal site and negotia-tions for its purchase had been entered This farm contains 64 acres and can be bought for \$65 per acre or \$4,160. Mr. Cutler considered that this amount was too large a bonus to ask from the farmers for the auxiliary plant, and had signified the willingness of the Sugar company to pay for the site, with the exception of \$1,800, which the farmers would be asked to contribute.

The committee above named will secure as large an amount of the \$1,800 as possible by subscriptions from men who will be indirectly benefited by the rection of the crushing station. Mr. William Knight has already started he list with a subscription of \$205, the emainder will be apportioned among the ocet growers and will be collected by the Sugar company pro rata on the acreage of beets grown by the farmers. Manager Cutler has already taken steps to have a switch run from the Oregon Short Line track to the crush ing station site, and will be here with the Oregon Short Line engineer at an early date to make the necessary sur eys and estimates for this work. a recent communication from here it was stated that our local board of health had the smallpox situation well in hand; since then, however, it has been discovered that the disease was in the family of W. Two of our business men are among those who boarded at the hotel, and it will work quite a hardship on them, as all who have been exposed are put under rigid quarantine.
